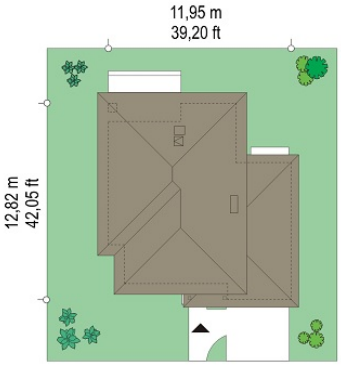
• Elevation - thin-layer plaster on polystyrene
• Roof - tile

CENA PROJEKTU: 970.00 $



Energy-saving package	bezpł.
Ventilation and fireplace package	90
Central vacuum package	70
The electronic version of the project	120
Solar installation package	70
Underfloor heating package	80
Heat pump package	70
Water jacket package	70
Boiler for solid fuel package	80
Air conditioning package	80
Fencing projects	140
Septic tanks sealed package	bezpł.

Amethyst house plan is a single-family house for a family of 4 – 6 people. This house was covered by the hipped roof. Compact, simple in building body of the building with the build garage, was varied by the clinker on facade and arcades - the entrance and garden. In this house plan a particular emphasis was put on the purity and simplicity of building form. Frugal detail adds elegance to the house. The interior of the house was also planned so that the divisions of the rooms were clear – no needless corridors and the rooms themselves have an optimal shape. On the ground floor a living room with dining area and lobby, with a partially open kitchen and an extra room - study or guest bedroom was designed. On the first floor there are three bedrooms with dressing-room and built-in wardrobes and a large bathroom. It is also a possible to save up additional fourth room on the first floor – by eliminating wardrobe. There is also a mirror version of Amethyst.
