	Heat pump package	70
	Water jacket package	70
	Boiler for solid fuel package	80
	Air conditioning package	80
	Fencing projects	140
	Septic tanks sealed package	bezpł.

Cypisek 2 is enlarged version of the Cypisek house. This is a one-story house for a family of 4, covered by a simple gable roof, with a non-usable attic, which can be adapted to the usable attic. The front elevation of house was diversified by a corner arcade entrance and a covered bay window of kitchen. The elevation of the garden is enriched by a wide exit doors from the living room to the terrace, and an arcade on the part of the terrace. The whole shape of the building is simple but curiously composed. Traditional roofs are connected together with modern detail and materials. The interior of the ground floor was divided into day and night part - with three bedrooms and a bathroom. In the living room a corner fireplace and a convenient kitchen with dining table in the bay window was planned. Stairs from the hall lead to the attic, which can easily be adapted to usable attic. There is also a mirror version of the Cypisek 2.
