	Air conditioning package	80
	Fencing projects	140
	Septic tanks sealed package	bezpł.

Helios house plan is a charming storey house for a family of 4 - 5 people. This is a proposal for investors who like modern architecture, who did not give up the functionality and comfort of your house. Storeyed building block was covered with a hipped roof and partly built garage was crowned with a flat roof. Well-chosen architectural details, nicely spaced windows, wooden and brick cladding on the walls - all this creates an attractive appearance of the house. The interior is an open living area on the ground floor, with a living room, a hall with nicely harmoniously placed stairs, dining area and kitchen, and bedrooms on the floor of the house. On the ground floor of the house an extra room - office or guest bedroom, and a garage with a boiler room was designed. On the first floor there is an parent's apartment with bathroom and dressing room, children's bedroom with a private bathroom, and an extra room. Helios house plan is also available in the mirror version.
