Swallow house plan is the perfect choice for a summer house, as well as year-round. This house plan is built with solid logs with internal insulated of mineral wool. The building has been designed for a family of four people. This house plan architecturally the best fit into suburban and rural areas. Quite simple shape covered by a hipped roof has been varied by picturesque garden entrance portico and a covered veranda where owners can sit in the afternoons - admiring their garden. The interior of the house is an open living area with a spacious kitchen, and night part - more private, with bedrooms. There was designed a large utility room designed for boiler room on the side of the house. This house plan foresees optional basement under utility room. Swallow house plan thanks to its simple form and structure is economical in building and in the later maintenance.
